EQUIPMENT INNOVATORS
800 Industrial Park Drive
Marietta, Georgia 30062-2431
omnicube® Transport Coolers, Refrigerators, Freezers, and Combination Units

omnicube® Transport Coolers, Mechanical Refrigerators, Freezers, and Combination Units are designed and manufactured by Equipment Innovators in a variety of shapes and sizes. omnicube® transport refrigerators with mechanical refrigeration exceed food safety regulations by providing convenient transport refrigeration in the truck body at freezer, refrigerator, or cooler temperatures. We also offer the omnicube® transport cooler built with omniice® for food or candy.

omnicube® is constructed of heavy duty corrosive-resistant materials and anodized extruded aluminum with aluminum and stainless steel fasteners. Walls and doors contain 1-3/4” polyurethane core and FRP skins. Special thermal breaks reduce heat transfer around entire cabinet.

omnicube® Ice Pack Coolers for Candy and Food

See Price List insert

Protect your chocolate and other perishables with omnicube® Candy and Food Coolers. omnicube® with its superior insulation and omniice® ice packs provide the right temperature for optimal product freshness and appearance.

TC 12-11 CP Candy Cooler - #GTC12-11-CP
TC 12-11 RP Food Cooler - #GTC12-11-RP

Includes 4 adjustable wire shelves. Maximize chocolate sales year round with our Candy Cooler which includes 2 Candy omniice® ice packs. Food cooler includes 2 Refrigerator omniice® ice packs.

TC 12-10 CP Candy Cooler - #GTC12-10-CP
TC 12-10 RP Food Cooler - #GTC12-10-RP

Candy Cooler includes 3 Candy omniice® ice packs. Food Cooler includes 3 Refrigerator omniice® ice packs (shown above) for maintaining colder temperatures for sandwiches, milk, and other sensitive perishables. 5 food trays (BB-207) also included.

TC 15-12 CP Candy Cooler - #GTC15-12-CP
TC 15-12 RP Food Cooler - #GTC15-12-RP

Candy Cooler includes 3 Candy omniice® ice packs. Food Cooler includes 3 Refrigerator omniice® ice packs (shown) for maintaining colder temperatures for sandwiches, milk, and other sensitive perishables. 6 food trays (BB-207) also included.
Candy Cooler includes 4 Candy omniice® ice packs. Food Cooler includes 4 Refrigerator omniice® ice packs (shown) for maintaining colder temperatures for sandwiches, milk, and other sensitive perishables. 7 food trays (BB-207) also included.

**omniclip® Fluorescent Bulb Holders**

*omniclip®* fluorescent bulb holders help eliminate breakage and storage problems. *omniclip®* safely holds all sizes of fluorescent tubes, and mounts out of the way (overhead or vertically). Each *omniclip®* set of two holds 4 tubes.

Each holder is 9-1/8" W x 2-3/4" D x 3" H. The bands keep the bulbs from sliding. Position the band at the base for large bulbs and at the top for small bulbs.

In addition to the standard omnicube® models we build, we can custom manufacture a variety of coolers, refrigerators, and freezers based on the client’s particular specifications. Following are some examples:

- Custom omnicube® to fit into a limited space
- Fits your tray, our tray, or both
- Cargo Van omnicube® Freezer accessed thru side door
- Food Sampling omnicube® unit has a refrigerated section and a dry storage area for supplies. Surfaces are stainless steel.
- omnicube® for the back of a pick-up
- Mobile Catering omnicube® for mounting on utility cart

omnivan® Truck Bodies

omnivan® truck bodies are custom designed and manufactured to the client’s specific industry needs. All cargo is organized and easily accessible. omnivan® is lightweight and tough, constructed of fiberglass, stainless steel, and extruded aluminum for strength and durability.

- Beverage Delivery omnivan®
- omnivan® for Fabricare
- Fire Extinguisher omnivan®
- Food and Meal omnivan®
Other truck body sizes are limited to certain molds or fixtures. Because of the omnivan's construction and design, dimensions of width, height, and length are based on your specific requirements. An omnivan® truck body can be mounted on the chassis of your choice and easily transfers from one to another with all customizing and logos in place, thereby extending the life of your investment.

An important part of any business is its image. omnivan® with its attractive exterior and interior design reflects the quality image you want to present to your customers. Each door has a smooth exterior surface that is ideal for logo applications and painted company graphics. Studies show that vehicles give 500 advertising impressions per mile.
The omnivan® Body

**Materials**

omnivan® is lightweight and tough. It is designed and constructed of fiberglass, stainless steel, and extruded aluminum for strength and durability.

Fly-hinged doors protect your cargo from bad weather. Interlocking drip rails on and above each door guide the water down the sides of the omnivan® and away from your cargo.

Side and rear doors make loading and unloading easier. You never have to crawl, stoop, or bend to reach anything. Everything is at your fingertips. Choose top or side-hinged.

Customized compartments:

All space in the omnivan® body is customized to your specific industry needs. All cargo is organized and easily accessible.

Mounts on the chassis of your choice:

The omnivan® body with all customizing in place, easily transfers to a new chassis. It can extend the useful life of several chasses.
